British Science Week Competition 2020

Dear Parents/Carers,

British Science Week is fast approaching and runs from 6th - 15th March 2020, this event is a ten day celebration of science, technology, engineering and maths. The theme for 2020 is 'Our Diverse Planet', and due to the fantastic response to last year's Science competition I would like to invite the children to once again enter a school competition.

This year I have been working with the School Council to gather their thoughts and opinions on the focus for the competition, and they have come up with some fantastic ideas, primarily based upon their interest in animals.

This year we are asking the children to design a futuristic animal to adapt and live in our ever changing world.

Entries will need to include:

- A design of their animal on an A4 piece of paper including labels and a descriptive caption.
- Name, age and class written clearly on the back of their design.
- Children may also make a 3D model of their animal alongside their design if they wish.

There will be 4 winners chosen from EYFS, KS1, Lower KS2 and Upper KS2. Winners will receive a scientific prize, and certificate which will be presented during a whole school assembly within Science Week.

I look forward to seeing all of the creative and imaginative entries. Good luck and most importantly have fun!

Yours Sincerely

Miss Ingram
